

SJP EverGreen 100% Renewable Energy Product	
Whom do I contact for more information?	<p>Mail: City of San Jacinto 595 S. San Jacinto Ave San Jacinto, CA 92583</p> <p>Phone: (951) 665-6812</p> <p>Email: CustomerService@SanJacintoPower.com</p> <p>Website: www.SanJacintoPower.com</p>
What is the Renewable Energy Percentage?	Our SJP EverGreen Program Contains 100% Renewable Energy.
What is the contract length?	There is no term length associated with your participation in the voluntary 100% renewable energy service option. However, failure to pay SJP electricity charges may result in your return to Southern California Edison (SCE)'s bundled service.
How much will SJP EverGreen cost?	SJP EverGreen's 100% Renewable Energy Service rates are set by the San Jacinto City Council during a regularly scheduled public hearing. Current rates can be found on our website at: www.SanJacintoPower.com
Will the rate change over time?	SJP is governed by the San Jacinto City Council. Every year, the City Council goes through a rate-setting process based on the projected energy costs for the coming year. This process is held at an annual public hearing during the City Council's regularly scheduled meeting dates. The public is invited to attend and participate.
What are the enrollment options?	SJP currently offers one opt up program. SJP EverGreen gives customers an opportunity to opt up to 100% renewable energy at a competitive price.
What other fees might I be charged?	SCE charges SJP customers a Power Charge Indifference Adjustment (PCIA) calculated based on the number of kilowatt hours used each month. The PCIA is intended to ensure that SCE's remaining customers do not pay for energy that had been acquired for SJP's customers prior to their switch. The PCIA "vintage" for SJP customers is 2017, and the amount is determined by rate class.
How will I be billed?	SCE continues to bill for your monthly electricity usage. Your bill will look much as it has in the past.
If I want to terminate service, what is the termination fee?	There is no termination fee should you decide to return to SCE for generation services. You will be subject to SCE's current terms and conditions upon your return.
